General Instructions

The customs rules established by the Syrian Arab Republic stipulate that:

1. All shipments MUST be covered by one invoice. When one shipment is covered by two or more invoices the Syrian customs rules stipulate that each invoice has to be covered by a separate customs declaration – this results in the costs of customs clearance to be multiplied (since these costs depend on the number of the invoices). In this respect, if any supplier fails to apply this policy, UNRWA will be forced to claim the additional clearance costs from the supplier.

2. Every invoice covering shipments of any modalities MUST clearly show (in writing) both:
   a) The country of origin; and
   b) The name of the manufacturer.

3. The Supplier is responsible for ensuring that the shipment, including its contents, packing, and documentation, is in accordance with the laws of the Syrian Arab Republic including Law No. 286 year 1956 which stipulates in general that it is prohibited the import, sell, purchase, or transport any Israeli goods and products. Also prohibits to purchase from Israel or from the Israelis or sell to Israel or Israelis, as well as to purchase any goods, commodities, services, materials made in Israel or any products containing components, manufactured or converted in Israel or any other commodities shipped via Israel.

In addition the Syrian customs rules stipulate that any shipment which is produced in Israel and/or found to contain any markings/printings in Hebrew (on its packages, catalogues or brochures) or contains Symbols of Six-Pointed star must be rejected, then confiscated or re-exported to the country of origin with or without a fine as stated under Syrian Import Regulation No. 2024/T/2011.

Breaching the law No. 286/1956 will result in imprisonment sentence with hard labour for a period of not less than three years but not exceeding ten years and a fine may be added to this punishment, and in the event that the crime is committed by a legal person the representative who committed it shall be convicted with the same mentioned penalties.

In all cases, seized items shall be confiscated in addition to the vehicles used in transporting and committing the crime if the owner was aware of the crime by the time of transport. Therefore the shipments shall be in accordance with the Syrian laws, otherwise it will be considered a default in shipment by the Supplier. UNRWA shall not be liable for such default. UNRWA shall have the right to take such action as it deems necessary in response to the default in shipment, and the supplier will be responsible for any damages
suffered by UNRWA relating to this default.
1. The AWB must be endorsed by the following clause: **GOODS ARE SHIPPED TO BEIRUT AIRPORT IN TRANSIT TO SYRIA**

2. Packing List must match the consignment and mention the manufacturer name, manufacturing and expiry dates.

3. Hard copies of Invoices and Packing Lists are needed the earliest possible. These documents are needed to ask for the necessary approvals at the related Ministry of Health.

4. Air-freighted shipments - each covered by one AWB (Airway Bill) has to be covered by one invoice only (the invoice should show a grand total value of the shipment – and one currency only).

5. Notification on shipping of perishable supplies (where special cooling conditions are needed) should be done with
special attention by BOTH the supplier & the shipper (acting on behalf of the supplier) in order for the receiving party to ensure that the cold-chain is not discontinued.

6. UNRWA Field Office in the Syrian Arab Republic requires a ten day time frame to get the SARC-related import approvals from the government officials in Syria.

7. Syria Arab Republic authorities do not accept instructions, catalogs and manuals marked, printed or translated into Hebrew. As the result of this, shipments containing documents in Hebrew can be refused clearance. This is considered a default in the shipment. UNRWA will have the right to take the action deemed necessary for any shipments received with these catalogs or manuals and the supplier will be responsible for any cost due to this default.

DUPLICATED CASE USE: 8. Syria Arab Republic authorities do not accept instructions, catalogs and manuals marked, printed or translated into Hebrew. As the result of this, shipments containing documents in Hebrew can be refused clearance. This is considered a default in the shipment. UNRWA will have the right to take the action deemed necessary for any shipments received with these catalogs or manuals and the supplier will be responsible for any cost due to this default.

9. The purchase order must be stated in all respective shipping documents.
