UNRWA Health Centers registered 909 PRS consultations, 48 cases (31 women, 17 men) were referred to secondary and tertiary healthcare services. Full primary health care services at all health centres was resumed except the curative dental health services. In KAP, UNRWA provides primary healthcare to KAP residents through its implementing partner- the Jordan Health Aid Society (JHAS). Mobile dental clinic service was resumed at KAP, 20 patients were treated in the first week of June. 17 general protection cases were referred to hospitals, including 76% in Zarqa area, 12% in South Amman area and 12% in Irbid area.

Education Services

43%

of students live in homes with PCs or laptops

24%

of students have tablets

UNRWA conducted an Agency-wide parents' survey on students' access to technology and self-learning material. Findings suggested smartphones 54.5% and TVs 36% are the most widely available devices at homes. Smart devices are generally shared among family members, rather than students having sole-use. The two UNRWA Vocational Training Centres have prepared for the new academic year, providing catch-up classes due to COVID-19 outbreak which put an obstacle to practical workshops. 2nd year-students including 9 PRS (3 girls and 6 boys), will also attend trainings ahead of the comprehensive exam in July.

In addition to the gradual easing of mobility restrictions, outreach and awareness raising campaigns, carried out by UNRWA, helped to increase reporting of protection cases. Outreach activities included the dissemination of informative messaging and materials, circulation of Protection and GBV hotlines. One general protection case was referred internally and resolved by providing counselling concerning documentation issues. The two GBV cases recorded were referred internally to the GBV focal point network for support and follow up. Social Workers have progressively returned to their work placement, while providing protection and counseling services remotely, when necessary.

King Abdullah Park

366 PRS
133 Syrians

11 KAP residents left the facility.

3 PRS individuals recorded as new arrivals, the first ones since the COVID-19 outbreak in March. All individuals that left (61 individuals- 24F, 37M) were informed about the access restrictions, and COVID-19 related measures implemented. Building on the successful MHPSS awareness session for women conducted in partnership with International Rescue Committee (IRC) in May, UNRWA is organizing periodic MHPSS awareness sessions for groups of KAP residents. Authorization for conducting the Rapid Protection Assessment remains pending. Frontline staff continued to provide protection and counseling services remotely, when necessary. Likewise, UNRWA hotlines and those of partners will continue operating until further notice. Awareness raising materials continued being shared with beneficiaries.

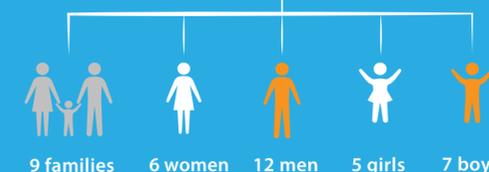

June 2020 PRS Overview

17,495 PRS

331 persons with disabilities

30 Returnees to Syria

0 PRS back to Jordan

Since the re-opening of Nassib border in October 2018, 267 PRS families (784 individuals) went back to Syria, out of whom 127 families (447 individuals) came back to Jordan and had their files reactivated with UNRWA.
